

ASUS ZenBook 14

Timeless beauty, effortless portability

Designed for comfort and convenience

ZenBook 14 features a new edge-to-edge ergonomic keyboard design that increases the size of the keyboard for more comfortable typing. And it looks stunning, too! For easy data entry, there's the ASUS NumberPad 2.0 that integrates a full-size LED-illuminated numeric keypad into the touchpad. The integrated infrared (IR) camera on ZenBook 14 makes face login fast and easy with Windows Hello. It even works in dim lighting conditions, so there's no need to type a password.
